

Beyond Dementia – Seeing, Caring, Connecting:

Education and conversation on how faith communities can support people with dementia and their caregivers

Tuesday, February 12 | Brenau Downtown Center

Registration & Networking: 10:30 – 11 a.m. | Program: 11 a.m. – 1 p.m. (Lunch Provided)

Open to clergy, lay leaders and congregants of all faith traditions.

When individuals and families are facing a diagnosis of dementia, they often don't know where to turn. Because of the stigma, they often remain silent about their struggles. Learn what your faith community can do to recognize and minister to those with dementia both in your congregation and in the wider northeast Georgia community.

Learn to :

- Recognize common signs of dementia and families who are struggling to care for a loved one with dementia
- Find local and online resources that support people living with dementia and their care partners
- Interact with people with dementia
- Support caregivers
- Make worship services and facilities more “dementia friendly”

Do you already have programs, practices or resources in place?

Join the conversation and share your knowledge with others!

Please register by February 4 at nghs.com/hospice-events or by calling 770-219-0276.

This service is made possible through donations to The Medical Center Foundation including a grant from the Georgia Gerontological Society made possible by funds from the Georgia Department of Human Services and other community partners. We thank our friends and neighbors for their generosity.
